Professional Summary

Skilled and results-oriented web developer with extensive experience in graphic design, web development, and IT solutions. Proven ability to work with clients to deliver high-quality, user-friendly digital solutions. Over a decade of experience spanning across hardware/software services, digital agency management, and web development, with a good background in both front-end and back-end technologies. Seeking to further enhance technical expertise through postgraduate studies in Information Technology.

Professional Experience

Web Developer / UI/UX Designer
Crown Prince Incorporated, Liberia
2018 – Present

- Develop and maintain the company's website, ensuring optimal performance, functionality, and an engaging user experience.
- Design and implement UI/UX solutions, including layouts, color schemes, and visual elements to improve website usability and aesthetics.
- Create graphics, icons, and other digital assets for web pages and online marketing materials.
- Manage online lead generation and seek contracts for the company's services in areas like electrical work, construction, and logistics.

Graphic/Web Designer
Unitrans (Microfinance Company), Liberia
2015 – 2018

- Designed and maintained the company's website, improving user experience and web traffic.
- Created graphics, logos, and visual content for online and offline marketing campaigns.
- Worked closely with clients to understand their needs and deliver creative digital solutions.
- Developed responsive web designs using HTML, CSS, and JavaScript.

Co-Founder / Graphic Designer
Digital Agency/Studio, Liberia
2012 – 2014

- Co-founded and managed a digital studio offering graphic design, web development, and network installation services.

- Led design projects for clients, delivering high-quality web and graphic solutions.
- Worked with the development team to integrate design with functional web applications.
- Helped the business grow and manage client relationships until the company closed due to the Ebola epidemic in 2014.

Owner / Hardware/Software Shop
Local Business, Liberia
2009 – 2012

- Established and managed a local hardware and software shop, offering technical support and IT solutions to the community.
- Assisted clients with troubleshooting, installing software, and repairing hardware.
- Developed strong problem-solving and customer service skills, helping to grow the business's reputation in the local market.

Education and Certifications

Udemy
